Trial Advocacy Albert J. Moore 1996 Explains how to prepare a case for trial by identifying historical factual propositions that satisfy applicable legal elements; identifying evidence and inferences tending to prove or disprove the crucial factual propositions in a case; organizing evidence into persuasive arguments, whether the evidence is disputed or undisputed or suggests an implausibility in a witness' story; and understanding the influence of "silent arguments" and taking advantage of or countering such arguments. Illustrates interrelationship among evidence, argument, and technique. Sets forth and illustrates trial techniques so advocates can persuasively communicate their arguments to judges and jurors.

Problems and Materials in Evidence and Trial Advocacy Robert P. Burns 2023-03-22 Volume One?of?Problems and Materials in Evidence and Trial Advocacy?contains two fictional case files, containing material similar to that trial lawyers may have as they approach?trial. The first file is a murder case, where the issue is the identity of the killer and the defendant is?the estranged husband of the victim. The second file is a civil action for defamation brought by a?former employee against her very wealthy employer. Both cases present engaging fact patterns as they introduce lawyers to the rigors of evidence rules. Both raise realistic and challenging issues in the law of evidence and allow for a critical assessment of that law. The cases are designed to raise realistic and?challenging issues in trial theory and practice and in the law of evidence. The book is designed to?be used with?Volume II?of?Problems and Materials, which contains over three hundred problems?in evidence and over sixty exercises in trial advocacy based on the files.? New to the Seventh Edition: MacIntyre case file updated to reflect modern working situation Text message evidence Web page evidence Updated problems that address these newer forms of evidence Professors and students will benefit from: The inclusion of both a criminal and a civil case file, providing opportunities for students to work as prosecutors, defense counsel, and plaintiff's counsel Engaging fact patterns and evidentiary items More than 300 problems that guide students through multiple evidence scenarios

Trial Advocacy in Action Brent E. Newton 2015-05-17 "[This book]...merges a realistic complex federal prosecution with real high-court decisions in a hypothetical, fact-intensive mock trial case file. Each of these twenty exercises introduces a wrinkle involving a constitutional challenge to procedures of evidence that

students then analyze through the lens of the Supreme Court's decisions in landmark criminal procedure cases. This fusion of factually compelling scenarios and intellectually challenging legal doctrines creates a robust learning experience that will hone the students' skills regarding legal analysis and legal advocacy concerning constitutional issues that arise throughout the course of a criminal case"--

Courtroom Psychology and Trial Advocacy Richard Waites 2003 An invaluable resource for experienced trial attorneys, inexperienced trial attorneys looking to advance to the next level of trial practice, and corporate counsel who handle litigation, this book looks at the role courtroom psychology plays in modern trial practice. It covers the essentials of trial practice, including jury selection, opening and closing statements, and questioning witnesses, as well as the key aspects of arbitration hearings and mediations. But what makes this book different from basic trial advocacy primers is its attention to the results of decades of scientific research relating to courtroom psychology (or persuasion psychology). This area concerns how and why jurors, judges, and arbitrators make decisions and how they are influenced. This book examines the role persuasion psychology plays in modern trial practice and how lawyers can use it to their advantage.
