How It Feels to Float Helena Fox 2019-05-07 A Kirkus Reviews Best Book of the Year A Chicago Public Library Best of the Best of the Year "Profoundly moving . . . Will take your breath away." —Kathleen Glasgow, author of *Girl in Pieces* A stunningly gorgeous and deeply hopeful portrayal of living with mental illness and grief, from an exceptional new voice. Biz knows how to float. She has her people, her posse, her mom and the twins. She has Grace. And she has her dad, who tells her about the little kid she was, and who shouldn't be here but is. So Biz doesn't tell anyone anything. Not about her dark, runaway thoughts, not about kissing Grace or noticing Jasper, the new boy. And she doesn't tell anyone about her dad. Because her dad died when she was seven. And Biz knows how to float, right there on the surface—normal okay regular fine. But after what happens on the beach—first in the ocean, and then in the sand—the tethers that hold Biz steady come undone. Dad disappears and, with him, all comfort. It might be easier, better, sweeter to float all the way away? Or maybe stay a little longer, find her father, bring him back to her. Or maybe—maybe maybe maybe—there's a third way Biz just can't see yet. Debut author Helena Fox tells a story about love and grief, about inter-generational mental illness, and how living with it is both a bridge to someone loved and lost and, also, a chasm. She explores the hard and beautiful places loss can take us, and honors those who hold us tightly when the current wants to tug us out to sea. Trigger N. Griffin 2022-03-29 Didi's father is constantly pressuring her to do better: win at chess, run faster every day, shoot better, hunt better or go hungry; she is not allowed friends, or time off or any pleasures; he always reminds her that they have to be prepared to fight the rest of the world—but what he never tells her is that when she is the best he plans to hunt her.

Promise Not to Tell Jennifer McMahon 2009-03-17 "McMahon unfurls a whirlwind of suspense...Combining murder mystery and coming-of-age tale with supernatural elements, this taut novel is above all a reflection on the haunting power of memory." —Entertainment Weekly A woman's past and present collide in terrifying ways in this explosive debut by New York Times bestselling author Jennifer McMahon. Forty-one-year-old school nurse Kate Cypher has returned home to rural Vermont to care for her mother, who's afflicted with Alzheimer's. On the night she arrives, a young girl is murdered—a horrific crime that eerily mirrors another from Kate's childhood. Three decades earlier, her dirt-poor friend Del—shunned and derided by classmates as "Potato Girl"—was brutally slain. Del's killer was never found, while the victim has since achieved immortality in local legends and ghost stories. Now, as this new murder investigation draws Kate irresistibly in, her past and present collide in terrifying, unexpected ways. Because nothing is quite what it seems . . . and the grim specters of her youth are far from forgotten. More than just a murder mystery, Jennifer McMahon's extraordinary debut novel, *Promise Not to Tell*, is a story of friendship and family, devotion and betrayal—tautly written, deeply insightful, beautifully evocative, and utterly unforgettable.

The Trigger Arthur C. Clarke 2012-11-30 A "thought-provoking, suspenseful" political sci-fi thriller from the authors of *2001: A Space Odyssey* and *Star Wars: The Black Fleet Crisis* (Library Journal). In the near future, a team of scientists who intend to create an anti-gravity device inadvertently develop something far more powerful—a mechanism that can render guns and bombs virtually harmless. Their creation, "The Trigger," causes nitrate-based bombs and explosives to detonate

automatically. The idealistic scientists who envision the benevolent use of their great invention soon discover that even protective weaponry comes with its own moral trade-offs. Soon, every faction of the gun industry is involved—politicians, manufacturers, lobbyist, military—and the scientists must fight to keep the weapon out of violent hands. While negotiating this tricky territory, they realize that not even those with the best intentions can be trusted. There are no easy answers in this thriller that "lend[s] the familiar issue of gun control new urgency and excitement" (Publishers Weekly).

That's Not What Happened Kody Keplinger 2018-08-28 From New York Times bestseller Kody Keplinger comes an astonishing and thought-provoking exploration of the aftermath of tragedy, the power of narrative, and how we remember what we've lost. It's been three years since the Virgil County High School Massacre. Three years since my best friend, Sarah, was killed in a bathroom stall during the mass shooting. Everyone knows Sarah's story—that she died proclaiming her faith. But it's not true. I know because I was with her when she died. I didn't say anything then, and people got hurt because of it. Now Sarah's parents are publishing a book about her, so this might be my last chance to set the record straight . . . but I'm not the only survivor with a story to tell about what did—and didn't—happen that day. Except Sarah's martyrdom is important to a lot of people, people who don't take kindly to what I'm trying to do. And the more I learn, the less certain I am about what's right. I don't know what will be worse: the guilt of staying silent or the consequences of speaking up . . .

She was forced to see, in the most brutal of ways, that love does not conquer all. Bruised, bloody, and broken she had to walk away. THE AFTERMATH Picking up the pieces of your life after a tragedy is a daunting prospect, and that's considering you still own all of the pieces. But what if you don't? What if someone else owns those pieces, and those pieces are a part of your soul? You dig deep and work with what you've got. That's what Danika told herself and believed, every single day, for years. Tristan and Danika's love had failed every test that life had thrown at them. She couldn't forget that, not for one second. And if those tests had been overly harsh, well, she wasn't one to wallow in self-pity. The failure was the thing she had to focus on. The failure was the lesson. She had no intention of working so hard to make it out of hell without learning that lesson well. THE REUNION Over six years after the night that changed everything, Danika finds herself forced to spend the weekend constantly in Tristan's company, as they attend the wedding of two of their dearest friends. It's been long enough that she feels they can be friendly again without it destroying her peace of mind, but just a small amount of time in his presence has her remembering something she had forced herself to forget: There'd been a reason she'd gone through hell with this man, for this man, some true good to precede the bad. She shocks herself by quickly giving in to a hunger that she never imagined could still consume her. Even the best intentioned denial has a breaking point. THE HARSH REALITY After everything that's happened, the rise and the fall, the pain and the aftermath, can these two navigate the waters of acute regret, survive the trials of coming face to face with all that they have lost, and find the strength to try again?

Fascinate Sally Hogshead 2010-02-09 A newly revised and updated edition of the influential guide that explores one of the most powerful ways to attract attention and influence behavior—fascination—and how businesses, products, and ideas can become irresistible to consumers. In an oversaturated culture defined by limited time and focus, how do we draw attention to our messages, our ideas, and our products when we only have seconds to compete? Award-winning consultant and speaker

Sally Hogshead turned to a wide realm of disciplines, including neurobiology, psychology, and evolutionary anthropology. She began to see specific and interesting patterns that all centered on one element: fascination. Fascination is the most powerful way to capture an audience and influence behavior. This essential book examines the principles behind fascination and explores how those insights can be put to use to sway:

- Which brand of frozen peas you pick in the case
- Which city, neighborhood, and house you choose
- Which profession and company you join
- Where you go on vacation
- Which book you buy off the shelf

Structured around the seven languages of fascination Hogshead has studied and developed—power, passion, innovation, alarm, mystique, prestige, and alert—Fascinate explores how anyone can use these triggers to make products, messages, and services more fascinating—and more successful.

Talk Triggers Jay Baer 2018-10-02 Talk Triggers is the definitive, practical guide on how to use bold operational differentiators to create customer conversations, written by best-selling authors and marketing experts Jay Baer and Daniel Lemin. Word of mouth is directly responsible for 19% of all purchases, and influences as much as 90%. Every human on earth relies on word of mouth to make buying decisions. Yet even today, fewer than 1% of companies have an actual strategy for generating these crucial customer conversations. Talk Triggers provides that strategy in a compelling, relevant, timely book that can be put into practice immediately, by any business. The key to activating customer chatter is the realization that same is lame. Nobody says "let me tell you about this perfectly adequate experience I had last night." The strategic, operational differentiator is what gives customers something to tell a story about. Companies (including the 30+ profiled in Talk Triggers) must dare to be different and exceed expectations in one or more palpable ways. That's when word of mouth becomes involuntary: the customers of these businesses simply MUST tell someone else. Talk Triggers contains: Proprietary research into why and how customers talk More than 30 detailed case studies of extraordinary results from Doubletree Hotels by Hilton and their warm cookie upon arrival, The Cheesecake Factory and their giant menu, Five Guys Burgers and their extra fries in the bag, Penn & Teller and their nightly meet and greet sessions, and a host of delightful small businesses The 4-5-6 learning system (the 4 requirements for a differentiator to be a talk trigger; the 5 types of talk triggers; and the 6-step process for creating talk triggers) Surprises in the text that are (of course) word of mouth propellants Consumers are wired to discuss what is different, and ignore what is average. Talk Triggers not only dares the reader to differentiate, it includes the precise formula for doing it. Combining compelling stories, inspirational examples, and practical how-to, Talk Triggers is the first indispensable book about word of mouth. It's a book that will create conversation about the power of conversation.

Triggers Marshall Goldsmith 2015-05-19 Bestselling author and world-renowned executive coach Marshall Goldsmith examines the environmental and psychological triggers that can derail us at work and in life. Do you ever find that you are not the patient, compassionate problem solver you believe yourself to be? Are you surprised at how irritated or flustered the normally unflappable you becomes in the presence of a specific colleague at work? Have you ever felt your temper accelerate from zero to sixty when another driver cuts you off in traffic? Our reactions don't occur in a vacuum. They are usually the result of unappreciated triggers in our environment—the people and situations that lure us into behaving in a manner diametrically opposed to the colleague, partner, parent, or friend we imagine ourselves to be. These triggers are constant and relentless and omnipresent. So often the environment seems to be outside our control. Even if that is true, as Goldsmith points out, we have a choice in how we respond. In Triggers, his most powerful and insightful book yet, Goldsmith shows how we can overcome the trigger points in our lives, and enact meaningful and lasting change. Goldsmith offers a simple "magic bullet" solution in the form of daily self-monitoring, hinging around what he calls "active" questions. These are questions that measure our effort, not our results. There's a difference between achieving and trying; we can't always achieve a desired result, but anyone can try. In the course of Triggers,

Goldsmith details the six "engaging questions" that can help us take responsibility for our efforts to improve and help us recognize when we fall short. Trigger and Friends James H. Schmitz 2001 Corrupt governors are running and ruining planets in the future, while mobsters smuggle real illegal aliens and make their getaways with subspace portals. Shift! Craig Elias 2010-06-25 There is a silver bullet in sales its called timing when you get to highly motivated decision makers at EXACTLY the right time: after they experience a Trigger Event BUT before they call your competition. When you have the right timing the sale almost happens by itself There are few challenges getting to the prospect, understanding their dissatisfaction, presenting a solution, or closing the sale. By luck or sheer numbers youve had timing happen before, not its time to make it happen again, and again, and again. ... simple but profound truths that will help you leverage intent for immediate action and cut down the selling cycle, while creating lasting bonds with customers. Stephen M.R. Covey, author of the New York Times and #1 Wall Street Journal bestseller The Speed of Trust "... an entirely new perspective on things that are hiding in plain sight for all sales professionals. Well done!" Kevin Fancey, Senior Vice President of Sales, Ricoh Canada Inc By combining the power of relationships with timing - what Elias and Shanto call "Trigger Events" - the authors present a powerful sales strategy... Keith Ferrazzi, #1 NYT Bestselling author of Who's Got Your Back and Never Eat Alone Elias and Shanto have brought referrals into the 21st Century, showing you how to capitalize on the key moments that will bring you success in a busy, fast-paced world. This is a must read! Ivan Misner, NY Times Bestselling author and Founder of BNI and the Referral Institute

If He Had Been with Me Laura Nowlin 2013-04-02 If he had been with me everything would have been different... I wasn't with Finn on that August night. But I should've been. It was raining, of course. And he and Sylvie were arguing as he drove down the slick road. No one ever says what they were arguing about. Other people think it's not important. They do not know there is another story. The story that lurks between the facts. What they do not know—the cause of the argument—is crucial. So let me tell you...

Stories I Only Tell My Friends Rob Lowe 2011-04-26 A wryly funny and surprisingly moving account of an extraordinary life lived almost entirely in the public eye A teen idol at fifteen, an international icon and founder of the Brat Pack at twenty, and one of Hollywood's top stars to this day, Rob Lowe chronicles his experiences as a painfully misunderstood child actor in Ohio uprooted to the wild counterculture of mid-seventies Malibu, where he embarked on his unrelenting pursuit of a career in Hollywood. The Outsiders placed Lowe at the birth of the modern youth movement in the entertainment industry. During his time on *The West Wing*, he witnessed the surreal nexus of show business and politics both on the set and in the actual White House. And in between are deft and humorous stories of the wild excesses that marked the eighties, leading to his quest for family and sobriety. Never mean-spirited or salacious, Lowe delivers unexpected glimpses into his successes, disappointments, relationships, and one-of-a-kind encounters with people who shaped our world over the last twenty-five years. Rob Lowe's New York Times bestselling autobiography, *Stories I Only Tell My Friends*, shares tales that are as entertaining as they are unforgettable.
