## **With The Dragon's Children**

David J. Garms 2015-08-12  
David Garms's *With the Dragon's Children* is the first-hand account of interactions with Vietcong who responded to the South Vietnamese government's amnesty program. The narrative, packed with information about Vietnamese attitudes, aspirations, and reactions to the war, explores their rich history and culture, and discusses the operation of the amnesty program. After valuable experience with the Peace Corps in India and on assignment with USAID (U.S. Agency for International

Development), the author received intensive instruction in Vietnamese language, history and culture. Assigned to a small province (Go Cong) in the Delta as the civilian U.S. advisor to the amnesty program for the Vietcong, he worked with—and befriended—about one thousand former Vietcong. A fascinating picture of farmers, bureaucrats, soldiers and merchants emerged out of this experience. Based on extensive notes, unclassified documents, books, and interviews carried out over a three-year period in Vietnam, *With the Dragon's Children* is the only book written about the U.S. supported amnesty (Chieu Hoi) program for the Vietcong.

Contemporary Vietnam Ian Jeffries 2011-03-07 This book provides full details of contemporary economic and political developments in Vietnam. It continues the overview of developments up to

late 2005 which were covered in the author's *Vietnam: A Guide to Economic and Political Developments* (also published by Routledge, 2006). Key topics covered include Vietnam's success, in general, in maintaining high rates of growth in the face of problems such as inflation and the global financial crisis; continuing economic reforms; foreign trade and investment; battles against corruption; population growth; the determination of the Communist Party to maintain its hold on power; and Vietnam's response to public health problems such as AIDS, SARS and bird flu.

Western historians have long speculated about Chinese military intervention in the Vietnam War. It was not until recently, however, that newly available international archival materials, as well as documents from China, have indicated the true extent and level of Chinese participation in the conflict of Vietnam. For the first time in the English language, this book offers an overview of the operations and combat experience of more than 430,000 Chinese troops in Indochina from 1968-73. The Chinese Communist story from the "other side of the hill" explores one of the missing pieces to the historiography of the Vietnam War. The book covers the chronological

development and Chinese decision-making by examining Beijing's intentions, security concerns, and major reasons for entering Vietnam to fight against the U.S. armed forces. It explains why China launched a nationwide movement, in Mao Zedong's words, to "assist Vietnam and resist America" in 1965-72. It details PLA foreign war preparation, training, battle planning and execution, tactical decisions, combat problem solving, political indoctrination, and performance evaluations through the Vietnam War. International Communist forces, technology, and logistics proved to be the decisive edge that enabled North Vietnam to survive the U.S. Rolling Thunder bombing campaign and helped the Viet Cong defeat South Vietnam. Chinese and Russian support prolonged the war, making it impossible for the United States to win. With Russian technology and massive Chinese intervention, the NVA and NLF could function on both conventional and

unconventional levels, which the American military was not fully prepared to face. Nevertheless, the Vietnam War seriously tested the limits of the communist alliance. Rather than improving Sino-Soviet relations, aid to North Vietnam created a new competition as each communist power attempted to control Southeast Asian communist movement. China shifted its defense and national security concerns from the U.S. to the Soviet Union.

#### **Supernaturalism**

Thien Do 2003 Popular religion in southern Vietnam is so often regarded as an indefinable mix of many different beliefs, meanings and symbols with little pattern of explanation. In contrast, this book highlights that the beliefs of the Vietnamese can be categorized into four distinct, yet overlapping, spheres and that the varying attitudes which exist towards the spirit world are a direct result of unique historical and environmental circumstances. Vietnamese Supernaturalism examines a wide range of religious customs, from trancer possession practices to styles of self-cultivation, against

several different backgrounds including, migration settlement and the effect of colonialism. Despite the ostensible differences within the practices of 'popular religion', Thien Do controversially demonstrates two consistent similarities: an abiding interest in the altered state of consciousness and the daily acts of survival employed in order to evade identity construction. By brining together oral histories, reports and fiction writing alongside more conventional documented sources, this book reveals an area of history which has been largely neglected. It will prove to be a valuable resource to students of Asian studies, anthropology and all of those with an interest in the history of Vietnam.

*Vietnam* Bill Hayton 2010 The eyes of the West have recently been trained on China and India, but Vietnam is rising fast among its Asian peers. A breathtaking period of social change has seen foreign investment bringing capitalism flooding into its nominally communist society, booming cities swallowing up smaller villages, and the lure of

modern living tugging at the traditional networks of family and community. Yet beneath these sweeping developments lurks an authoritarian political system that complicates the nation's apparent renaissance. In this engaging work, experienced journalist Bill Hayton looks at the costs of change in Vietnam and questions whether this rising Asian power is really heading toward capitalism and democracy. Based on vivid eyewitness accounts and pertinent case studies, Hayton's book addresses a broad variety of issues in today's Vietnam, including important shifts in international relations, the growth of civil society, economic developments and challenges, and the nation's nascent democracy movement as well as its notorious internal security. His analysis of Vietnam's "police state," and its systematic mechanisms of social control, coercion, and surveillance, is fresh and particularly imperative when viewed alongside his portraits

of urban and street life, cultural legacies, religion, the media, and the arts. With a firm sense of historical and cultural context, Hayton examines how these issues have emerged and where they will lead Vietnam in the next stage of its development. Dragons Entangled Steven J. Hood 1993-03-15 In February 1979, China launched a full scale attack on Vietnam bringing to the surface the deep tension between the two socialist neighbours. The importance of the resultant war is often overlooked. Millions of people throughout the region were affected, and the frictions that remain in the wake of the war threaten the prospects for peace not only in Southeast Asia, but also the whole Asia-Pacific region as well.

*Living with Dragons* G. Leis 2014-05-04 Excerpt: "We lined up in front of tables arranged by MOS (Military Occupation Speciality). I stood in line at the field radio operator table and waited for my turn. I took my turn, and a Lance Corporal seated behind the table picked

up one of scores of stamps and stamped my orders. I read my orders and the imprint said: "SU#1, 1st ANGLICO, FMF, WESTPAC" OK, I knew FMF meant FLEET MARINE FORCE, and WESTPAC meant WESTERN PACIFIC (Vietnam), but I had never seen or heard of SU#1, 1st ANGLICO. I asked the Lance Corporal what ANGLICO was. He looked at my orders and said he had no idea. He tapped the Corporal working beside him, showed him my orders, and asked him where I was going. The Corporal shook his head and said he had never heard of it. The Lance Corporal gave me back my orders, looked into my eyes and said, "You're going to hell, Private." That made me a bit anxious. Luckily, one of the guys I went through boot camp with, John Staunton, also had the same orders. So if I was going to hell, I wasn't going alone." I served 19 months with the Republic of Korea's 2nd Marine Brigade (BLUE DRAGON BRIGADE). With one other enlisted U.S. Marine, much of that time was at

Thomas Petri 2009 ANGLICO: "Super Grunts" of 1st ANGLICO were deployed to all four tactical zones of Vietnam

in small mobile fire control teams, providing support to U.S. Army and allied elements. This organization was the last tactical unit to stand down from the war and gained distinction as the only Marines in-country reporting directly to MACV. Working closely with Korean Marines, recounting several actions involving these legendary warriors from the Land of the Morning Calm, this little known but highly effective unit had an impact on the war far greater than their small numbers. Field radio operators and naval gunfire spotters composed the tactical membership of this unit. Both professions were cross trained in each competence, and each in turn was further qualified as tactical air controllers. An airborne capable platoon was established, mandating many ANGLICOs attend jump school and undertake other specialty training in the event they are called on to enter combat by unconventional means. Not being able to predict who they may be called on to support, training was pushed to the

level of the most elite forces in the free world. BLUE DRAGONS: Most men of the Blue Dragon Brigade came of age during a war that raged fierce on their own homeland little more than a decade earlier. During a short lived occupation by North Korea, the people of the south endured extremely harsh treatment by would be conquerors. Events of recent history still burned in their hearts and haunted their dreams. They were mostly all children at the time leaving scarcely a man untouched by personal tragedy that could only be forged in a crucible of terror. Many were orphaned and all shared a thirst to settle a score that only those who drink deep from the same cup of dread can truly understand.

Dan Burnham, Frank's uncle, has just left the American Army and is looking for adventure. He finds what he is looking for in spades during the bloody end of that war and the first years of South Vietnam. Saigon is simmering with intrigue, gangsters run the police and opium is king. After surviving the battle for Saigon, Dan puts away his Colt .45, gets married and settles into a more peaceful life. He becomes a successful businessman, but by 1967 Vietnam is once more bathed in blood. Deadly

Frank Burnham, a teenage paratrooper, has arrived and is fighting in the war. He survives horrific battles and develops into a killing machine every bit as deadly as his uncle. He too becomes enmeshed in his Uncle Dan's problems. The bloody climax takes place in Laos where enemies abound and are always ruthless.
