**The Vietnamese Hydrocracy and the Mekong Delta** Simon Benedikter 2014  
Subduing nature and harnessing water resources rose to become the key paradigm of modernization in the Vietnam's Mekong Delta. Over the past 40 years, waterscape engineering turned Vietnam's largest river estuary into one of the most agriculturally productive areas in the world. This book traces water resources

development from the time of the socialist-oriented hydraulic mission and Green Revolution, which began in the late 1970s under the economic rationale of central planning, to more recent trends responding to renovation policy, global environmental change, and Vietnam's capitalist transformation. Analytically, the focus is with the nexus of water regulation, bureaucratic power, and socio-ecological change, as well as the vested interests and corresponding strategic actions that coalesce around the technocratic hydro-management. Going beyond the scope of the Mekong Delta, the book offers new perspectives and critical reflections on water governance dynamics and institutional reforms in Vietnam, from both historical and contemporary perspectives. *Vietnam* Thaveporn Vasavakul 2019-02-07 This is a study of Vietnam's socialist transition and state transformation, generally known as *đổi mới*. It examines the drivers of socialist-regime change, the nature of the *đổi mới* state, and the basis of regime legitimacy in Vietnam. The Element argues that despite its 'one-party rule' label, the party-state apparatus that channels said rule has become fragmented. State-building during the *đổi mới* period involved negotiations and bargaining that redefine authority and power relations within the state apparatus. The party-state's accountability projects are designed to target the specific self-aggrandizing tendencies of the state apparatus, its policies, and abuse of state power. At the leadership

level, patterns of resource allocation underlying the *đổi mới* growth model as well as the VCP's cadre rotation approach have accommodated central and sub-national state elites across sectors and levels, helping shore up the legitimacy of the *đổi mới* state in the eyes of the state elite. The combination of sustained economic growth, expansion of political space, accountability, and tolerance of small-scale public protests have been factors in strengthening regime-society legitimization.

Comprising contributions from leading Vietnam scholars, this volume comprehensively explores the core aspects of Vietnam's politics, providing a cutting-edge analysis of politics in one of East Asia's least understood countries. *Wards of Hanoi* David Wee Hock Koh 2006 In this book, the author marshals evidence to support an arena-specific approach towards

viewing Vietnam's state-society relations. In practice, the Vietnamese party-state's relations with society vary from the hard and uncompromising state, with the bureaucracy getting its way, to society's ability to negotiate the state's boundaries and regimes to make them less harsh. Any analysis of Vietnam's state-society relations needs to recognize and demonstrate both elements of dominance and accommodation, as well as specify the context in which either or both are seen. Alone, neither is adequate. In particular, the idea of the "state" needs to be disaggregated because "state" is not a singular actor that is coherent or uniform through time and space. To demonstrate how state-disaggregation can make our view more nuanced, this book analyses state-society interaction at the ward level of Hanoi, an urban local authority.

**The Government of Mistrust** Ken MacLean 2013-12-18 Focusing on the creation and misuse of government documents in Vietnam since the 1920s, *The Government of Mistrust* reveals how profoundly the dynamics of bureaucracy have affected Vietnamese efforts to build a socialist society. In examining the flurries of paperwork and directives that moved back and forth between high- and low-level officials, Ken MacLean underscores a paradox: in trying to gather accurate information about the realities of life in rural areas, and thus better govern from Hanoi, the Vietnamese central government employed strategies that actually made the state increasingly illegible to itself. MacLean exposes a falsified world existing largely on paper. As high-level officials attempted to execute

centralized planning via decrees, procedures, questionnaires, and audits, low-level officials and peasants used their own strategies to solve local problems. To obtain hoped-for aid from the central government, locals overstated their needs and underreported the resources they actually possessed. Higher-ups attempted to re-establish centralized control and legibility by creating yet more bureaucratic procedures. Amidst the resulting mistrust and ambiguity, many low-level officials were able to engage in strategic action and tactical maneuvering that have shaped socialism in Vietnam in surprising ways.

**Central-Local Relations in Asia-Pacific** Mark Turner 2016-07-27 A source of perennial tension in states is the degree to which decision-making power and authority should be concentrated in central institutions and individuals. At present the conventional wisdom of central-local relations has swung in favour of

decentralisation. This book investigates whether such convergence is taking place through detailed examination in Asia-Pacific. The results of the survey reveal a complex picture in which divergence is still evident in the region's patterns of central-local relations.

Beyond Political Skin Phạm Văn Thủy

2019-01-01 This book explains the dynamics behind the economic transformation from the colonial era to the post-independence period in Indonesia and Vietnam. It analyses the different Vietnamese and Indonesian government approaches to the economic legacies of colonialism remaining in these countries after independence. It also demonstrates that despite critical differences between the two nation-states, the Vietnamese and Indonesian leaderships were pursuing similar long-term goals: to create a truly independent national economy. The book discusses the way in which the Indonesian government established complete economic control, resembling the socialist

transformation of North Vietnam in the 1950s, and the various means by which the government of South Vietnam concentrated economic power in its own hands during the late 1950s and early 1960s. It also explores how the Indonesian government was determined remove the economic legacy of Dutch colonialism by placing the entire economy under strong state control and ownership in accordance with the spirit of Guided Democracy and Guided Economy in the late 1950s and the early 1960s. This book is a point of reference for students, researchers and academics interested in a comparative analysis of the economic systems implemented by the colonial and fascist powers in Indonesia and Vietnam.

Renovating Politics in Contemporary Vietnam Zachary Abuza 2001 Moving from the 1950s to the present, Zachary Abuza explores Vietnamese politics and culture through the lens of the internal debates over political reform. Abuza focuses on issues of representation, intellectual freedom, the rise of civil society, and the emergence of a loyal opposition, assessing the prospects for change. He finds that, while some mildly dissident groups may add impetus to the effort, internal party protest remains the most legitimate - and most likely - form of political dissent in the country. His analysis offers a compelling portrayal of the extraordinary contradictions that are at the core of contemporary Vietnam. Abuza explores contemporary Vietnamese politics through the lens of the internal debates over political reform.

compelling three-volume exploration of the philosophical, social, and political facets of the theory and practice of communism within the conditions of 21st-century world politics and late capitalism. The world has changed significantly, and so has communism. This groundbreaking three-volume series comprises contributions from over 30 experts that thoroughly address the past, present, and future of communism. The entries assess the modern re-articulation of the notion of communism and its potential emergence against the backdrop of recent historical conditions and contemporary world politics, taking into account the ongoing global financial crisis, recent revolutions throughout the Middle East, Occupy protest events, and anti-globalization movements. The first volume reexamines Marx's ideas from many distinct viewpoints while the second volume considers the numerous challenges facing existing communist parties, including those in China, Cuba, North Korea, and Vietnam. The last

volume explores the future of communist thought and practice in the context of the modern world and the recurrent crises of capitalism.

decentralised to the lower levels of the party-state but argues that the central state retains significant power. These issues are explored through a variety of case studies including the implementation of different reform policies, struggles over political and business activity, and the prosecution of two major corruption cases. Particular emphasis is placed on piecing together the myriad of informal practices which dominate business and political life in Vietnam.

**Vietnam Joins the World** James Morley  
2016-09-16 Ten American and Japanese specialists offer a comprehensive analysis of one of the most dramatic developments in Asia today: the re-emergence of Vietnam - not as the belligerent champion of a militant ideology and socialist cause, but as an open, friendly country seeking a respected place in the world community. Basing their observations on five years of study, visits to Vietnam, and numerous interviews with knowledgeable officials, scholars and businessmen there and in the United States

and Japan, the authors evaluate the political, economic, social and foreign policy changes that have been taking place in Vietnam over the past decade, trace the responses of the United States and Japan and offer a policy prescription for responding to the challenges of the future.

**Theorizing Transition** John Pickles 2005-08-31  
Theorizing Transition provides a comprehensive examination of the economic, political, social and cultural transformations in post-Communist countries and an important critique of transition theory and policy. The authors create the basis of a theoretical understanding of transition in terms of a political economy of capitalist development. The diversity of forms and

complexities of transition are examined through a wide range of examples from post-Soviet countries and comparative studies from countries such as Vietnam and China. Theorizing Transition challenges many of the comfortable assumptions unleashed by the euphoria of democratisation and the triumphalism of market capitalism in the early 1990s and shows transition to be much more complex than mainstream theory suggests.

### **Elections in Asia and the Pacific : A Data**

**Handbook** Dieter Nohlen 2001-11-15 This two-volume work continues the series of election data handbooks published by OUP. It presents a first-ever compendium of electoral data for all the 62 states in Asia, Australia and Oceania from their independence to the present. Following the overall structure of the series, an initial comparative introduction on elections and electoral systems is followed by chapters on each state of the region. Written by knowledgeable and renowned scholars, the

contributions examine the evolution of institutional and electoral arrangements, and provide systematic surveys of the up-to-date electoral provisions and their historical development. Exhaustive statistics on national elections and referendums are given in each chapter. Together with the other books of this series, *Elections in Asia and the Pacific* is a highly reliable resource for historical and cross-national comparisons of elections and electoral systems world-wide. The second volume of *Elections in Asia and the Pacific* covers the Asia-Pacific area, i.e. the 30 independent states of East Asia (including Japan), South East Asia and the South Pacific (including Australia and New Zealand).

changes that have been taking place in Vietnam over the past decade.

Routledge Handbook of Contemporary Vietnam

Jonathan D. London 2022-07-29 The Routledge Handbook of Contemporary Vietnam is a comprehensive resource exploring social, political, economic, and cultural aspects of Vietnam, one of contemporary Asia's most dynamic but least understood countries. Following an introduction that highlights major changes that have unfolded in Vietnam over the past three decades, the volume is organized into four thematic parts: Politics and Society Economy and Society Social Life and Institutions Cultures in Motion Part I addresses key aspects of Vietnam's politics, from the role of the Communist Party of Vietnam in shaping the country's institutional evolution, to continuity and change in patterns of socio-political organization, political expression, state repression, diplomatic relations, and human rights. Part II assesses the transformation of

Vietnam's economy, addressing patterns of economic growth, investment and trade, the role of the state in the economy, and other economic aspects of social life. Parts III and IV examine developments across a variety of social and cultural fields through chapters on themes including welfare, inequality, social policy, urbanization, the environment and society, gender, ethnicity, the family, cuisine, art, mass media, and the politics of remembrance.

Featuring 38 essays by leading Vietnam scholars from around the world, this book provides a cutting-edge analysis of Vietnam's transformation and changing engagement with the world. It is an invaluable interdisciplinary reference work that will be of interest to students and academics of Southeast Asian studies, as well as policymakers, analysts, and anyone wishing to learn more about contemporary Vietnam.

Vietnam's political system. Taking advantage of the unprecedented wealth of revealing documentary material published in Vietnam since 1985, Gareth Porter offers new insights into the functioning of the Socialist Republic of Vietnam and its management of the Vietnamese economy and society. He examines the evolution of the system from the time the Democratic Republic of Vietnam was founded in 1945 through the 1986-1990 period of economic liberalization and cautious political reform by the successor regime, the SRV.

### **Central-Local Relations in Asian**

**Constitutional Systems** Andrew Harding  
2015-12-17 This book examines territorial governance in Asia in the context of central-local relations. In an era of attempts to deal with issues such as decentralisation, conflict involving ethnic and religious enclaves, and demands for regional autonomy, it is timely to examine central-local relations in a pan-Asian perspective, assessing the attempts in a range of

different constitutional systems from Japan to Myanmar to re-order constitutional structures for local government. The book looks at the constitutional systems for organising central-local relations in Asia and attempts to draw conclusions from contemporary experiences.

**The A to Z of Vietnam** Bruce M. Lockhart  
2010-04-14 Vietnam became part of French Indochina in 1887 and did not regain its independence again until after the Vietnam War. However, despite a relatively peaceful two decades the country experienced little economic growth because of conservative leadership policies. In an effort to change this stagnation, Vietnamese authorities have committed to economic liberalization and enacted structural reforms needed to modernize the economy and to produce more competitive, export-driven industries. The A to Z of Vietnam focuses on the recent changes and leadership of Vietnam while giving due attention to the earlier kingdoms, the period of French Indochina, the wars for liberation, the Vietnam War, and much more. Hundreds of cross-referenced A to Z dictionary entries are included on political, economic, social and cultural aspects as well as the major cities and geographic features. This book also

contains a chronology and introduction that traces Vietnam's history, as well as a bibliography.

Problems of Communism 1990

Vietnamese State Industry and the Political Economy of Commercial Renaissance Adam Fforde 2007-02-28 This book is based upon extensive and repeated fieldwork, close observation and familiarity with institutional detail. It traces Vietnam's early attempts to create in State Owned Enterprises (SOEs) a basis for a military-industrial complex, and the ways in which these attempts failed, which explains the nature of state commercialism through the 1980s and into recent years. Since the 1990 breakout to a market economy, Vietnam has shown outstanding development success, with rapid GDP growth, macroeconomic stability, swift poverty reduction, maintenance of social spending and extensive globalisation. Her SOEs have played a major role, not only in showing that performance gains in 1989-91

could compensate for loss of the large Soviet bloc aid program, but also as major players in the rapid economic change of the 1990s, during which the officially reported state share of GDP remained high. By the middle of the 2000s, however, a rising private sector was, in harness with a large presence of foreign companies, sharply increasing pressures upon SOEs. Against this background, the book concludes with an assessment of the extent to which Vietnam's commercialised SOEs are now no longer seen as an effective compromise, but acting as a major hindrance to Vietnam's development. Historical analysis of the process by which Vietnam's SOEs shifted from central-planning to operation in an increasingly globalised market economy Draws upon regular and repeated fieldwork going back to the late 1970s Uses a wide range of Vietnamese language and other sources

**Vietnam and the World** Eero Palmujoki 2016-07-27 Vietnam and the World is a comprehensive book on Vietnam's international relations since 1975. It is also a study on the development of Marxist-Leninist doctrine in Vietnam. With its special reference to foreign policy, the book examines how formalist Marxist-Leninist rhetoric penetrated traditional pragmatically oriented Vietnamese thinking. By using previously unexploited Vietnamese material, the author pinpoints the development of Vietnamese doctrine vis-a-vis pragmatism and formalism and analyzes the line pursued by Vietnam during the radical changes in international relation between 1975 and 1993.

Efforts to understand the impact of the Vietnam War on America began soon after it ended, and they continue to the present day. In *After Vietnam* four distinguished scholars focus on different elements of the war's legacy, while one of the major architects of the conflict, former defense secretary Robert S. McNamara, contributes a final chapter pondering foreign policy issues of the twenty-first century. In the book's opening chapter, Charles E. Neu explains how the Vietnam War changed Americans' sense of themselves: challenging widely-held national myths, the war brought frustration, disillusionment, and a weakening of Americans' sense of their past and vision for the future. Brian Balogh argues that Vietnam became such a powerful metaphor for turmoil and decline that it obscured other forces that brought about fundamental changes in government and society. George C. Herring examines the postwar American military, which became nearly obsessed with preventing "another Vietnam."

Robert K. Brigham explores the effects of the war on the Vietnamese, as aging revolutionary leaders relied on appeals to "revolutionary heroism" to justify the communist party's monopoly on political power. Finally, Robert S. McNamara, aware of the magnitude of his errors and burdened by the war's destructiveness, draws lessons from his experience with the aim of preventing wars in the future.

**Legal Reforms in China and Vietnam** John Gillespie 2010-09-13 Although the adoption of market reforms has been a key factor leading to China's recent economic growth, China continues to be governed by a communist party and has a socialist-influenced legal system. Vietnam, starting later, also with a socialist-influenced legal system, has followed a similar reform path, and other countries too are now looking towards China and Vietnam as models for development. This book provides a comprehensive, comparative assessment of legal developments in China and Vietnam, examining

similarities and differences, and raising important questions such as: Is there a distinctive Chinese model, and/or a more general East Asian Model? If so, can it be flexibly applied to social and economic conditions in different countries? If it cannot be applied to a culturally and politically similar country like Vietnam, is the model transportable elsewhere in the world? Combining 'micro' or interpretive methods with 'macro' or structural traditions, the book provides a nuanced account of legal reforms in China and Vietnam, highlighting the factors likely to promote, change or resist the spread of the Chinese model.
