Kew Book of Sugar Flowers Cassie Brown
2018-05-25 In the *Kew Book of Sugar Flowers*, sugarcraft specialist Cassie Brown teaches you how to craft stunning, authentic-looking flowers and foliage using flower paste (gum paste). Learn how to create beautiful bouquets and stunning sprays, from the early stages of germinating your ideas - taking inspiration from nature and making moulds from real flowers and leaves - to creating floral cake decorations with an exotic or wild flower theme for a special occasion. Through clear and concise step-by-step instructions, Cassie explains every facet of crafting sugar flowers, from gaining an appreciation of the flower itself, to preparing the flower paste and colouring it to wiring the flowers into an attractive and realistic bouquet.

There is a veritable garden of delights to choose from, from ornate orchids to delicate daisies. The method for crafting each individual flower is demonstrated in stunning detail beginning with an 'exploded flower' photograph that illustrates each of the individual components and working through the techniques and tricks that Cassie herself applies to create her stunning floral displays. The *Kew Book of Sugar Flowers* is the perfect book for the established sugarcrafter looking to develop their skills and take their cake-decorating capabilities to the next level. Readers with a particular interest in flowers and plants will also love this book for its painstaking recreation of flora in flower paste (gum paste), and the book is endorsed by the Royal Botanic Gardens, Kew giving extra credibility to the stunning realism of the flowers that Cassie

Brown has recreated. Foreword by Eddie Spence M.B.E. Eddie Spence MBE has enjoyed an illustrious career in confectionery and cake design and his superior skills have earned him the opportunity to decorate many cakes for the royal family, including Her Majesty the Queen herself.

Kew - Rare Plants Ed Ikin 2023-10-12 "Some plants are inherently rare, while others become rare through our actions." Rare Plants explores what makes the world's most uncommon plants so exceptional, and by what means they have become so scarce. From highlands to jungles, many of our most extraordinary plants are vanishing at shocking rates, and this exquisitely illustrated book explores 40 of these mysterious species. Featuring stunning archive images and expert insight from the Royal Botanical Gardens, Kew, Rare Plants explores both the beauty and necessity of our endangered plant life.

Palace of Palms Kate Teltscher 2020-07-09 'A glorious green adventure story.' Ann Treneman, The Times 'Books of the Year' 'The most enthralling historical book I've read this year.' Claire Tomalin, New Statesman 'Books of the year' Daringly innovative when it opened in 1848, the Palm House in Kew Gardens remains one of the most beautiful glass buildings in the world today. Seemingly weightless, vast and yet light, the Palm House floats free from architectural convention, at once monumental and ethereal. From a distance, the crowns of the palms within are silhouetted in the central dome; close to, banana leaves thrust themselves against the glass. To enter it is to enter a tropical fantasy. The body is assaulted by heat, light and the smell of damp vegetation. In Palace of Palms, Kate Teltscher tells the extraordinary story of its creation and of the Victorians' obsession with the palms that filled it. It is a story of breathtaking ambition, of scientific

discovery and, crucially, of the remarkable men whose vision it was. The Palm House was commissioned by the charismatic first Director of Kew, Sir William Hooker, designed by the audacious Irish engineer, Richard Turner, and managed by Kew's forthright curator, John Smith, who battled with boilers and floods to ensure the survival of the rare and wondrous plants it housed.

Kew Gardens Virginia Woolf 2021-10-21

"Doesn't one always think of the past, in a garden with men and women lying under the trees? Aren't they one's past, all that remains of it, those men and women, those ghosts lying under the trees... one's happiness, one's reality?"

A family of four is walking around Kew Gardens in London, lost in their thoughts. The husband thinks of the girl who turned down his marriage proposal in this very garden many years ago. When asking his wife if it upsets her that he's thinking about this other woman, she reasons that one's past is like ghosts lying under the trees. Only Virginia Woolf can write a short story about completely ordinary things and people and make you long for more. With exquisite prose, she invites you along as she examines the beauty of normal summer's day. Adeline Virginia Woolf (1882-1941) was an English writer who, despite growing up in a progressive household, was not allowed an education. When she and her sister moved in with their brothers in a rough London neighborhood, they joined the infamous The Bloomsbury Group, which debated philosophy, art and politics. Woolf's most famous novels include 'Mrs Dalloway' (1925) and 'To the Lighthouse' (1927).

Situated on the south bank of the River Thames, the Royal Botanical Gardens, also known as Kew, is a paradise for plant lovers. Author Allen Paterson chronicles the rich history of Kew, from private pleasure ground to international institution. With photographs of the garden today and botanical illustrations from the Kew collection, this beautiful book brings the story of Kew completely up to date.

Flora DK 2018-10-23 Let the experts at the Royal Botanic Gardens guide you around the beautiful and mysterious world that is the plant kingdom. From regulating the air we breathe to providing food, clothes, fuels, and medicines - plants are fundamental to our lives. Discover an extraordinary diversity of species, which includes a grass that grows a meter a day, roots that breathe air, and "queen of the night" cactuses whose rare blooms vanish before dawn. In a combination of art and science, Flora celebrates plants from majestic trees to microscopic algae, explaining how they

germinate, grow, and reproduce. It presents species that have evolved to accommodate pollinating insects such as the foxglove, and plants that have adapted to flourish in even the most hostile of habitats. Pierre-Joseph Redoute in the 18th-century was described as the "Raphael of flowers". Flora showcases his botanical paintings as well as those of Georg Ehret and others in this gorgeous visual celebration of plants through the ages. Whether you are a keen gardener, naturalist, or botany student, this beautiful book is a treat that will entice, inform, and amaze.

Project instructions for each design are available in Trish's inspirational books Needle Painting Embroidery, Colour Confidence in Embroidery, Miniature Needle Painting Embroidery and Whitework with Colour. Choose from a wonderful range of inspiring designs, including flowers, birds, figures, animals and small vignettes. The book contains a short section at the start which gives colour inspiration for every design plus advice on using the transfers; the rest of the book consists of iron-on transfer paper. Using the iron-on transfers is very simple, and each design can be used, stored then reused multiple times. This book gives embroiderers a bumper selection of designs to choose from - it will provide embroiderers of all abilities with the confidence they need to get started creating their own masterpieces.

The Royal Botanic Gardens, Kew: Wonderful Flowers Color-By-Numbers The Royal Botanic Gardens Kew 2020-08-15 From vibrant orchids to prickly cacti, this color-by-numbers compendium contains over 40 elegant flower designs to complete. This collection is produced in collaboration with the Royal Botanic Gardens at Kew, one of the most prestigious botanical gardens in the world. It holds extensive archives of botanical art, many of which first appeared in Curtis's Botanical Magazine. These original watercolor designs are featured inside this book, alongside the plants' Latin names. This book also includes a handy color-key on the back-flap, meaning you can flip it out next to your page for easy coloring reference. You can then tone and shade each design with ease and enjoyment and create beautiful botanic masterpieces.

keen amateur astronomer, so that he could observe the transit of Venus. By the mid-nineteenth century, it was a world-leading center for four major sciences: geomagnetism, meteorology, solar physics, and standardization. Long before government cutbacks forced its closure in 1980, the observatory was run by both major bodies responsible for the management of science in Britain: first the British Association for the Advancement of Science, and then, from 1871, the Royal Society. Kew Observatory influenced and was influenced by many of the larger developments in the physical sciences during the second half of the nineteenth century, while many of the major figures involved were in some way affiliated with Kew. Lee T. Macdonald explores the extraordinary story of this important scientific institution as it rose to prominence during the Victorian era. His book offers fresh new insights into key historical issues in nineteenth-century science: the patronage of science; relations between science

and government; the evolution of the observatory sciences; and the origins and early years of the National Physical Laboratory, once an extension of Kew and now the largest applied physics organization in the United Kingdom. that have ever been recorded growing in a wild state within the Gardens or its periphery (including the towpath, Kew Green and Old Deer Park), and all natives cultivated in formal beds or other plantings, either currently or in the past, for which there is reliable documentation, dating back to the first record of 1759. Nearly 2,000 taxa are included, with citation of literature records and herbarium specimens and accompanying colour photographs. The book notes the past and present distribution of wild species within the Gardens, and demonstrates the extent to which the wild flora of the Kew estate has changed over its 250 years.

The Golden Age of Botanical Art Martyn Rix 2013-09-02 The seventeenth century heralded a golden age of exploration, as intrepid travelers sailed around the world to gain firsthand knowledge of previously unknown continents. These explorers also collected the world's most beautiful flora, and often their findings were recorded for posterity by talented professional artists. The Golden Age of Botanical Art tells the story of these exciting plant-hunting journeys and marries it with full-color reproductions of the stunning artwork they produced. Covering work through the nineteenth century, this lavishly illustrated book offers readers a look at 250 rare or unpublished images by some of the world's most important botanical artists. Truly global in its scope, The Golden Age of Botanical Art features work by artists from Europe, China, and India, recording plants from places as disparate as Africa and South America. Martyn Rix has compiled the stories and art not only of

The Kew Gardens Girls Posy Lovell 2021-04-20 A heart-warming novel inspired by real life events, about the brave women during WWI who worked in the historic grounds of London's Kew Gardens. Can the women of Kew keep the gardens alive in the midst of war? London, 1916. England is at war. Desperate to help in whatever way they can, Ivy and Louisa enlist as gardeners at Kew, the Royal Botanic Gardens, taking on the jobs of the men who have gone to fight. Under their care, the gardens begin to flourish and become a safe haven for those seeking solace--but not everyone wants women working at Kew. The pair begin to face challenges on the home front. When a tragedy overseas affects the people closest to them, can the women of Kew pull together to support themselves and their country through the darkest of times?

Kew Gardens' Marianne North: View in the Brisbane Botanic Garden (Foiled Journal) Flame Tree Studio 2021-05-18 A FLAME TREE NOTEBOOK. Beautiful and luxurious the journals combine high-quality production with magnificent art. Perfect as a gift, and an essential personal choice for writers, notetakers, travellers, students, poets and diarists. Features a wide range of well-known and modern artists, with new artworks published throughout the year. BEAUTIFULLY DESIGNED. The highly crafted covers are printed on foil paper, embossed then foil stamped, complemented by the luxury binding and rose red end-papers. The covers are created by our artists and designers who spend many hours transforming original artwork into gorgeous 3d masterpieces that feel good in the hand, and look wonderful on a desk or table. PRACTICAL, EASY TO USE. Flame Tree Notebooks come with practical features too: a pocket at the back for scraps and receipts; two

ribbon markers to help keep track of more than just a to-do list; robust ivory text paper, printed with lines; and when you need to collect other notes or scraps of paper the magnetic side flap keeps everything neat and tidy. THE ARTIST. The Royal Botanic Gardens, Kew has a gallery dedicated to the paintings of the remarkable Victorian artist Marianne North, who had a great eye for botanical detail. She set out in 1871 on a painterly progress through world flora. North's journey to South Africa was among her last, along with trips to the Seychelles and Chile. THE FINAL WORD. As William Morris said, Have nothing in your houses that you do not know to be useful, or believe to be beautiful.
