Erotica Gaius Valerius Catullus 1878

Erotica Walter K. Kelly 2015-07-14 Excerpt from *Erotica: The Poems of Catullus and Tibullus, and the Vigil of Venus; A Literal Prose Translation With Notes* A meagre array of facts more or less controverted, and a few critical remarks, are all we can offer towards a biography of Valerius Catullus. We learn from the testimony of many ancient writers, that he was a native of Verona or its immediate neighbourhood; and the Marquis Scipio Maffei, himself a Veronese, asserts that in his day there were still traits of the language of Catullus in the dialect of his countrymen.

Whether the poets prajnomen was Cains or Quintus is uncertain, the former being assigned to him by Apuleius, the latter by Pliny. A more important question is that which concerns the dates of his birth and death. According to Hieronymus, in the Eusebian chronicle, he was born b.c. 87, and died in his thirtieth year, b.c. 57. The second date is undoubtedly erroneous, for we have positive evidence from his own works that he was alive in the consulship of Vatinius, b.c. 47. It is evident too that he must have survived at least till b.c. 45, for Cicero, in his Letters, talks of the verses of Catullus against Caesar and Mamurra (xxix.) as newly written, and first seen by Caesar in that year. The chronologers mistake as to the time of the poets death, throws some doubt also on that which he assigns to his birth. We shall however be exact enough for all literary purposes, if we conclude with Dunlop that Catullus "was nearly contemporary with Lucretius, having come into the world a few years after him, and having survived him but a short period." It is not certain that the poet belonged to the patrician family of the Valerii, but his father must have been a person of some consideration, for he was the friend and habitual entertainer of Julius Caesar. The son took up his abode in Rome in the very spring of youth (Ixviii. 15) and plunged without restraint into all the expensive pleasures of the best - that is to

say, the most debauched - society. This is sulhcient to account for the jocular complaints of poverty interspersed through his writings. The Poems of Catullus and the Vigil of Venus Gaius Valerius Catullus 1910

The Pervigilium Veneris William M. Barton 2018-05-03 This study provides a critical edition of the Pervigilium Veneris with a Latin text, translation and commentary. This late-antique poem, the 'Vigil of Venus',

is of unknown date and authorship. It exists in four heavily corrupted manuscripts, including the Codex Salmasianus, as part of a collection of later Latin poetry compiled around the 6th Century AD. Considerable attention has been paid to the piece since its first edition in the 16th century, largely on account of its singularity, mysterious origins and enigmatic final stanza, in which the poet suddenly bursts into the piece lamenting his 'lost muse'. Despite this scholarly interest, much work remained to be done in order to arrive at a more solid text of the poem and a more complete understanding of its meaning. This new edition, with detailed commentary notes and a full introduction to the historical and literary contexts of the poem, furthers our knowledge by offering new perspectives and analysis, incorporating existing scholarship and reviving ideas that had previously been set aside.

Sappho and the Vigil of Venus (Classic Reprint) Arthur S. Way 2015-07-19 Excerpt from Sappho and the Vigil of Venus The plan on which the following translations have been attempted is, I believe, original, and, I freely admit, audacious. The translator has essayed to weave together into connected wholes fragments which, being in the same metre, and, being conceivably connected in a sequence, or sequences, of thought, may possibly have been parts of one poem. Sappho is known to the general reader only by an ode and a half: but there are extant besides over 170 fragments, most of them very short, consisting in some cases of but a single word. Yet of these many, indeed most, are very tantalizing in their suggestiveness; and our poets, notably Swinburne, have expanded some of them into fairly long poems. The present translator has attempted no such flights. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. These few paragraphs distill the contents and give you a quick look inside: Here and there the texts become quite silly, separately or in consent; and just where they agree in the most surprising way—i.e. in the arrangement of the lines—the conjectural emendator is invited to do his worst by a note at the head of the older Codex, 'Sunt vero versus xxii'—'There are rightly twenty-two lines.' ...With a poem of 'paratactic structure' the best of us may easily go astray by transposing lines, or blocks of lines, to correspond with our sequence of thought; and I shall

be content if, following the only texts to which appeal can be made, [1] my translation be generally intelligible. ...That knave, now-he with the red nose and the black eye-the Duke's colours, loyal man!-you clap an iron on his leg, and ask him why he is not down in the city, hanging them out of window! ...But that day, rather, I clenched my nails over an inward wound: For that a something manlier than my years- Look, bearing, what-not-by the Duke not miss'd, Condemned me to promotion: I must bide At home, command the Guard! ...Your Highness will not know me-Zia Agnese, Giovannucci's wife that was; And feed a two-three cows, as a widow may, On the marshes where the grass is salt and sweet As your Highness knows-and always true to pail Until this Nicolò.

The Vigil of Venus Arthur Thomas Quiller-Couch 2016-06-26 Excerpt from *The Vigil of Venus: And Other Poems* It runs pretty closely, line for line, with the original; because one may love and emulate classical terseness even while despairing to rival it. But it does not attempt to be literal; for even were it worth doing, I doubt if it be possible for anyone in our day to hit precisely the note intended by an author or heard by a reader in the eighth century. Men change subtly as nations succeed to nations, religions to religions, philosophies to philosophies; and it is a property of immortal poetry to shift its appeal. It does not live by

continuing to mean the same thing. It grows as we grow. We smile, for instance, when some interlocutor in a dialogue of Plato takes a line from the Iliad and applies it seriously *à pied de la lettre*. We can hardly conceive what the great line conveyed to him; but it may mean something equally serious to us, though in a different way.
